Forecast for Monday 14 Mar 2022

Weather: Monday will see a lot of cloud with some outbreaks of rain, this falling as snow above 900 metres. Some uncertainty into the northern extent of rain and snow, but the afternoon will see the greatest chance of precipitation.

Chance of cloud-free hill tops above 800m: 30%, best of the clearest conditions in the sheltered northeast

Low cloud and visibility: Poor in extensive cloud down to 700 metres for most of the day. Ranges in the northeast of the area will see the best of any cloud free summits, this most probable in the morning.

Met Office Aberdeen Meteorologist's View
Freezing level expected to rise to higher summit level for a time in the afternoon before colder air spreads east in the evening

Forecast for Tuesday 15 Mar 2022
Weather: Dry in the morning, some early brightness. Cloudy in the afternoon and staying mostly dry, but a little snow will spread to the west of the area by evening.

Maximum wind: Southwesterly 30 to 40 mph, but nearer 50 to 60 mph across the Cairngorm Plateau

Chance of cloud-free hill tops above 800m: 70%

Low cloud and visibility: Generally good with little in the way of low cloud during daylight hours. Low cloud down to 700 metres will spread from the west after dark.

Temperature: **Glens:** -1 rising to 8 Celsius
At 800m: 0 to 2Celsius
Freezing level: 800 to 1000 metres
